In our mind's eye, we all have images of the great icons located in our nation's capital: the Lincoln and Jefferson Memorials, the Washington Monument, the U.S. Capitol, the Supreme Court, the World War II and the Vietnam Memorials. In this Photo Walk we will explore them all, seeking to bring a fresh look to each one. We also bring our creative eyes to bear on other subjects around the mall: museums, sculptures and people.

Steve Gottlieb has been photographing Washington, DC for thirty years and has produced three books on the city. He will help us develop a new perspective and appreciation of the city's exquisite treasures.
